

# Computop Logo Manual

## APPLICATION

The Computop logo is preferably used on a dark background to make the most of the logo's radiance.

# Structure

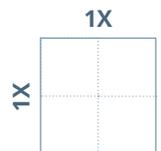

## GRID

The logo orientation is based on a square grid. Both the individual letter shape and the overall structure take this into account.

## SHELTER

The shelter is used as a minimum distance from any other objects, no other elements or fonts may protrude into it. The minimum distance should be 1x element all around, but may also be larger.

# Variants

## EXPLANATION

Different variants of the logo cover different applications. Each variant has its own special field.

LOGO WITHOUT CLAIM  
- ON SMALL, NARROW  
SURFACES

LOGO „CLASSIC“ – ON LARGE, ELONGATED SURFACES

LOGO „STAR“ – ON LARGE, SQUARE SURFACES

# Color variations

## EXPLANATION

The logos have different color variants to cover special applications in printing.

**If possible, the variant on gradient is always used. (see right side)**

## COLOR SPACES

The logos are available in RGB and CMYK. CMYK logos are used for print products (letterheads, business cards, roll-ups). Logos in RGB are color optimized for screen applications (website, Power Points) and have more luminosity.

Which logo is for which application is indicated by the respective addition „\_RGB“ or „\_CMYK“ in the file name.

# Logo Background

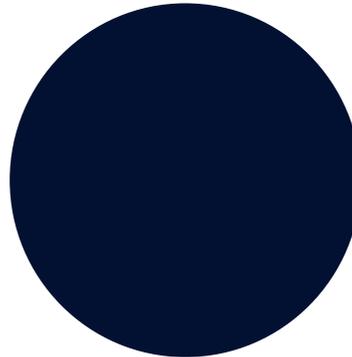

## EXPLANATION

If possible, the logo is placed on the blue gradient (night blue to sea blue) or night blue background.
